

## **20.0 Hand-Built Competition Wheel & Tyre**

*Rim: SM-Pro 14" (Available in Black / Silver / Gold).*

*Hub: 20.0 OSET 135mm 32h CNC hub.*

*Spokes: Hi tensile Sapim race spokes.*

*Nipples: Anodised Hi tensile nipple with bespoke seating washer enabling increased torque to be placed on the spoke for a stronger build.*

*Build: Hand-Built to a two-cross lacing pattern to optimise strength. Wheels are built in house by our specialist wheel-builder who has over 14 years experience building both motorcycle and bicycle wheels for race teams and the trade.*

*Tyre: Cheng Shin 14" x 3.00 Trials Tyre.*

*Tube: Heavy duty puncture resistant tube.*

*Rim Lock: Raceline WM2 rimlock.*

*Price: £329 in VAT.*

*Lead Time: Built to order, small quantities are kept on hand, however orders can take up to 5 weeks.*

*This hand built competition wheel increases the level of grip available to the rider.*

*With this wheel fitted, electric trials bikes are now able to be on a par in terms of grip compared with petrol bikes on the youth market.*
